SECTION 1

EXECUTIVE SUMMARY

This report presents the revenue, expenditure and closing financial position of the American Ditek Institute (ADI), Yaoundé, for the **2025/2026 academic year**. It is compiled from the Finance Office's end-of-year records and is addressed to the Chairperson. All amounts are expressed in Central African CFA francs (FCFA).

Key figure	Amount (FCFA)
Total revenue, 2025/2026	**4,528,000**
Total expenditure, 2025/2026	**4,509,686**
Surplus for the year	**18,314**
Amount owed by students at year end	1,691,000

Principal findings

- Revenue of **FCFA 4,528,000** was derived from tuition (FCFA 4,408,000; 97.35%) and registration income (FCFA 120,000; 2.65%).
- Expenditure of **FCFA 4,509,686** absorbed 99.60% of revenue, leaving a surplus of **FCFA 18,314**, or 0.40% of revenue.
- Lecturers' first-semester teaching hours (36.75%) and other operating expenditures (30.09%) together represent two-thirds of all expenditure.
- Several costs remain unpaid for lack of funds. At the rates recorded in this report, the indicative unpaid obligations (FCFA 3,303,700, excluding the water bill) exceed the FCFA 1,691,000 owed by students; the surplus therefore does not represent a net cash reserve.
- Four arithmetic differences found in the handwritten records were reconciled (Section 6). The UB inspection total was corrected to the sum of its lines, which reduces expenditure by FCFA 2,700; the accounts balance at the figures shown.

Camtel internet bill, July to September 2026	Unpaid	76,200 (3 × 25,400)
Water bill, August and September 2026	Unpaid	Not stated

SECTION 6

RECONCILIATION NOTES

Every category total and the grand total of FCFA 4,509,686 were recomputed from the individual lines, and the accounts now balance: revenue of FCFA 4,528,000 less expenditure of FCFA 4,509,686 gives a surplus of FCFA 18,314. The four points below record how each difference found in the handwritten record was resolved.

Ref.	Item	As originally recorded (FCFA)	Adjusted to balance (FCFA)	Adjustment (FCFA)	Effect on reported figures
6.1	Schedule 4.8: UB inspection visit total	251,800	249,100	−2,700	The total now equals the sum of its lines. Expenditure is reduced from 4,512,386 to 4,509,686 and the surplus increased from 15,614 to 18,314.
6.2	Schedule 4.7: electricity subtotal	124,000	124,500	+500	None. The utilities total of 619,986 already used 124,500.
6.3	Schedule 4.1: whiteboard markers (12 × 3,000)	18,000	18,000	0	None. The amount actually paid is retained; the quantity or unit price shown on the line is to be corrected against the receipt.
6.4	Schedule 4.1: whiteboard wipers (12 × 600)	6,000	6,000	0	None. The amount actually paid is retained; the quantity or unit price shown on the line is to be corrected against the receipt.

The surplus of FCFA 18,314 equals revenue of FCFA 4,528,000 less expenditure of FCFA 4,509,686, and was verified.
